

## ACCRETIVE HEALTH PHYSICIAN ADVISOR

### JOB DESCRIPTION

Accretive Health is currently sourcing qualified physicians who are interested in the field of revenue cycle management and compliance to join its rapidly growing team in all States as a Physician Advisor. Our Physician Advisors work in major cities around the country with a particular focus in Atlanta, Boston, Chicago, Dallas, Denver, LA, Philadelphia, Seattle and San Francisco. The Physician Advisor serves as a clinical resource to Accretive Health's hospital clients by providing qualified, second-level reviews of admission status as well as management of the entire claim denial process. Accretive Health is the industry leader in working with clients to help interpret and improve clinical compliance management processes.

Accretive Health services are performed electronically and telephonically with clients to assess appropriateness of level of care: medical, compliance, quality and appropriateness of reimbursement. The Physician Advisor also becomes a key player in the ongoing education of our client teams in business and clinical processes required to be compliant with the various payer rules and regulations.

Accretive Health offers a dynamic team-oriented working environment, robust and ongoing training program, competitive compensation and benefits, schedule flexibility and opportunities for professional growth across the entire Accretive Health organization.
